## **INTRODUCTION**

### **THE AIMS OF THE PLACEMENT TEST**

The placement test is designed to know well the learners' English level. In this opportunity, we would like to know not only the learners' speaking ability but also their writing skill. Therefore, we give them writing test and speaking test.

The writing test questions are chosen from the elementary level to the pre intermediate level. As the learners are fresh graduate senior high school students who have got English lesson in different ways of teaching method but most of them are lack basic functional communication skills.

The speaking test topics are chosen from the most common ones among the learners in order to help them express their ideas easily.

The learners will be placed in two different classes based on their result. However, they will get the same goals in learning, a bit different treatment in teaching.

As the objectives of the course are to enable students to communicate in English confidently and help students to practice their English both in writing and speaking in many useful situations.
