

# **GREAT FOREST POTENCY OF Ir. H. DJUANDA**

## **Abstract**

**By : Sri Marhanah**

Ir. H. Djuanda Grand Forest Park which is part of the Bandung concave area has the historical background which is very much related to the pre historic age until today. Geologically the area underwent the change which was caused by the natural change along the period of the universe forming. On the area of Ir. H. Djuanda Grand Forest Park and the surroundings, there have been found various archaeological remains of pre historic man such as daily living apparatus which are called artifact. Beside the recorded and conserved pre historic culture and the natural condition, the modern culture is also recorded in the system as its natural lay out was sufficient to be used for military purpose in the world war II and is used as arboretum in the scope of Ir. H. Djuanda Grand Forest Park today.
