

The background features a large, stylized balance scale on the right side, rendered in a dark brown color. On the left side, a series of white arrows points from left to right, with a small horizontal line above them. The number '2' is prominently displayed in the center, with a minus sign to its left.

TABEL PERBEDAAN

SPERMATOGENESIS - OOGENESIS

No	Faktor perbedaan	permatogenesis	ogenesis
1.	empat berlangsungnya pembelahan	testes	ovarium
2.	sana sel induknya	spermatogonium	oogonium
3.	sana sel anaknya	spermatozoa ()	ovum () polosit ()
4.	akhir pembelahan	sana semua selnya	tidak sana selnya
5.	atas waktu berlangsungnya pembelahan	terus menerus	sampai batas tertentu (menopause)
