

Contoh Fungsi Romawi

```
program contoh_romawi;
uses crt;
var
    n: array [1..10] of integer;
function romawi (n: integer): string;
begin
    case n of
        1 : romawi := 'I';
        2 : romawi := 'II';
        3 : romawi := 'III';
        4 : romawi := 'IV';
        5 : romawi := 'V';
        6 : romawi := 'VI';
        7 : romawi := 'VII';
        8 : romawi := 'VIII';
        9 : romawi := 'IX';
        10 : romawi := 'X';
    end;
end;
begin
    clrscr;
    write(' angka= '); readln(n[1]);
    writeln(' angka Romawi nya= ', romawi (n[1]));
    readln;
end.
```
