# **Parents role in valuing children education in the era of globalization**

**Drs. Ris R. Mulyana, M.Pd.**

## **ABSTRACT**

Education attempts for honing childrens' life skill so they could rise by themselves, this has become parents' responsibility as well as government and also citizen in the implementation of it. Through education, we have to make sure that our child grow as the bearer of norm and social value which has been civilian's norm.

Parents as one of the most important component which is actively responsible for education, must actively participate to succeeding their child education. Parents gave guidance and educate their child, in the matter of value education.

In the era of globalization many challenges have to be considered by the teachers and parents. And because of that teacher and parents must guide their child so they live in the right norm, so in some time near future they will acquire a decent degree of education.

Key words : value education ; childrens ; globalization
